Do you aspire to enter the fields of law, finance or politics? In the past two years the demand for young lawyers has risen by 131%, with similar trends noted in the finance sector. The appetite for jobs which create social impact has risen by 17% as issues like climate change take a prominent position in young minds.

You can gain invaluable experience in these fields with us this term. Our immersive weekend masterclasses offer you the chance to learn from a host of successful professionals: corporate lawyers, MPs, UN staff,

private equity managers and more.

We expect these programmes to be fully-booked in the next two weeks. You can choose to attend either at UCL or live online.
